

Local VCS Organisations supporting the delivery of Household Support Fund 2 (HSF2)

The council is working with VCS organisations / networks in each local area to provide support to vulnerable households that are struggling financially and facing increased cost of living pressures. All support is being provided as a contribution towards these additional costs and will be based on households providing the required information.

Normally only one award can be made to a household between June and September 2022 and all awards are discretionary and based on available / remaining Household Support Fund funding.
